

AUTHOR INDEX

VOLUME 3

- | | | | |
|----------------------------|--------------------------|-------------------------------|-------------------------|
| Bruce, Andrew W., 335 | Hatheway, Charles L., 66 | Lipsky, Benjamin A., 227 | Reid, Gregor, 335 |
| Buck, George E., 1 | Henchal, Erik A., 376 | McGroarty, Jacqueline A., 335 | Russell, A. D., 99 |
| Catlin, B. Wesley, 293 | Holland, Robert E., 345 | Merz, William G., 321 | Slifkin, Malcolm, 197 |
| Cheng, K.-J., 335 | Hruby, Dennis E., 153 | Murray, Barbara E., 46 | Uttley, Anne H. C., 280 |
| Costerton, J. William, 335 | Ilstrup, Duane M., 219 | Nolte, Frederick S., 269 | Woodford, Neil, 280 |
| Coyle, Marie B., 227 | James, Karen, 132 | Pappagianis, Demosthenes, 247 | Yagupsky, Pablo, 269 |
| Doyle, R. J., 197 | Johnson, Alan P., 280 | Putnak, J. Robert, 376 | Zimmer, Barbara L., 247 |
| George, Robert C., 280 | Johnson, F. Brent, 120 | | |
| Gootz, Thomas D., 13 | Jones, Jeffrey M., 32 | | |
| | Klugman, Keith P., 171 | | |

SUBJECT INDEX

VOLUME 3

- Antibiotics
 - pneumococcal resistance, 171
- Antimicrobial agents
 - development, 13
 - discovery, 13
 - new, 13
- Branhamella catarrhalis*
 - antibacterial agents, 293
 - biochemical characteristics, 293
 - identification, 293
 - pathogenic potential, 293
 - structure and composition, 293
- Campylobacter pylori*
 - gastroduodenal disease, 1
- Candida albicans*
 - strain delineation, 321
- Candidiasis
 - diagnosis
 - laboratory, 32
 - invasive, 32
- Clostridia
 - toxigenic, 66
- Coccidioidomycosis
 - serology, 247
- Coryneform bacteria
 - infectious diseases
 - clinical aspects, 227
 - laboratory aspects, 227
- Dengue viruses
 - biological characteristics, 376
 - clinical features, 376
- prevention and control, 376
 - replication, 376
 - structure and composition, 376
- Diarrhea
 - farm animals
 - young, 345
 - infectious causes, 345
- Enterococcus
 - life and times, 46
- Gastroduodenal disease
 - C. pylori*, 1
- Immunoserology
 - infectious diseases, 132
- Infectious diseases
 - coryneform bacteria, 227
 - immunoserology, 132
- Intestinal infections
 - lactobacilli, 335
 - prevention, 335
- Lactobacilli
 - prevention of urogenital and intestinal infections, 335
- Lectins
 - clinical microbiology application, 197
- Pneumococcal resistance
 - antibiotics, 171
- Septicemia
 - quantitative aspects, 269
- Serology
 - coccidioidomycosis, 247
- Spores
 - bacterial, 99
 - sporocidal agents
 - chemical, 99
- Sporocidal agents
 - bacterial spores, 99
 - chemical, 99
- Statistical methods
 - microbiology, 219
- Strain delineation
 - C. albicans*, 321
- Teicoplanin
 - resistance, 280
- Urogenital infections
 - lactobacilli, 335
 - prevention, 335
- Vaccines
 - recombinant, 153
 - vaccinia virus vectors, 153
- Vaccinia virus vectors
 - vaccines
 - recombinant, 153
- Vancomycin
 - resistance, 280
- Vectors
 - vaccines
 - recombinant, 153
 - vaccinia virus, 153
- Viral specimens
 - transport, 120
